VIDEO CONFERENCE Teacher Pack: Bin Busters

Teachers will need to supply the following equipment for the Video Conference.

- A collection of waste from the day before your Video Conference. Ideally it will contain some paper and cardboard waste, co-mingled waste (yoghurt tubs, poppers, aluminum cans, soft drink bottle, water bottle, steel cans), some organic waste (fruit scraps) and some waste that will go to landfill.
- Blue tarp for sorting the waste
- Tubs, trays, buckets for sorting the waste
- Labels for sorting the waste (print the labels at the end of this document)

The following materials will be needed for a Post VC Activity. Students will be asked to reuse some waste to create something new and different. Students and staff could collect a variety of empty containers, yoghurt tubs, milk containers, lids, small boxes etc. for this craft activity. You will also need sticky tape, masking tape, staplers, pens, textas, etc.

Print the labels (see the end of this document)
- Recycle
- Organic food waste (fruit and vegetable scraps, not meat or dairy)
- Landfill (all other waste)

Local Waste Management. Your students will be asked to report on your local landfill ie where is your waste taken to in your area? Are you able to recycle in your area? Do you know where it is processed?

Teacher Notes and Resources

Books
- In the Bin by Kellie Bollard. ISBN 9780646500584
- Down to Earth An Earth Works Learners Guide. Available from the Royal National Park EEC Digital copy on line at Down to Earth

Department intranet
- CLIC
- TaLe Why recycle

SCRAP for purchasing recycled paper, worms and large worm farms for school

Teachers can join a Wiki for further resources and post activity ideas on Bin Busters

You will receive an invitation to join the Wiki.

If you have any further enquiries please call the Centre ph 02 9542 1951.
