The Royal National Park Environmental Education Centre is coordinating video conferences for Kindergarten and Year 1 students.

The Surprise Garden text will launch a journey of plant discovery. Students will explore the diversity of plants, flowers and seeds through a range of interactive activities. The session will include an opportunity for observation and sorting of actual seeds. There will be a demonstration of how to plant a seed and care for it. Students will sing a song to celebrate the sowing of seeds.

| Wednesday  
| 28 August  
| 9.30-10.15  
| 11.30-12.15 |

Cost $50.00 per camera per session.

Maximum of 30 students per session.

Limited to 4 schools per session.

Teachers need to provide the following materials for the VC to ensure maximum student participation: at least 20 seeds of 5 different varieties (e.g. rice, wheat, pumpkin, peas and sunflower), 5 sheets of different coloured paper, 1 sheet of recycled paper per student group, pencils, markers (see website for further guidelines).
